

# National Numeracy Day: Wednesday 19<sup>th</sup> May

## Numbers In Nature

Dear Parents,

To celebrate National Numeracy Day on Wednesday 19<sup>th</sup> May, pupils are invited to wear non-uniform.

We are asking pupils to be creative and dress to represent an 'area of maths'. Some of our maths concepts are listed below, with ideas for you:

### What can we wear?

'Number' – wear a clothing item that contains a number on it.

'Time' - wear a watch, or make your own design to wear on your wrist!

'Shape' – come to school dressed to represent your favourite shapes.

'Measures' – think about those tape measures and rulers!

'Place Value' – wear your favourite number calculation, or calculator buttons!

### How will we celebrate?

Children will be learning maths in the outdoor environments around school. For arithmetic lessons, they will combine maths with PE to complete fitness times tables. During maths lessons, children will be challenged to complete tasks using natural materials from the grounds of the school to support their thinking.

We look forward to sharing our learning with you on Class Dojo!

Yours sincerely,

Giles Godfrey  
Head of School
